

## FLOOR SCRAPERS

## FOX

One Piece Grey Iron Frame, Rubber Tired Iron Wheels, Adjustable and Telescopic Maple Handle.

Each

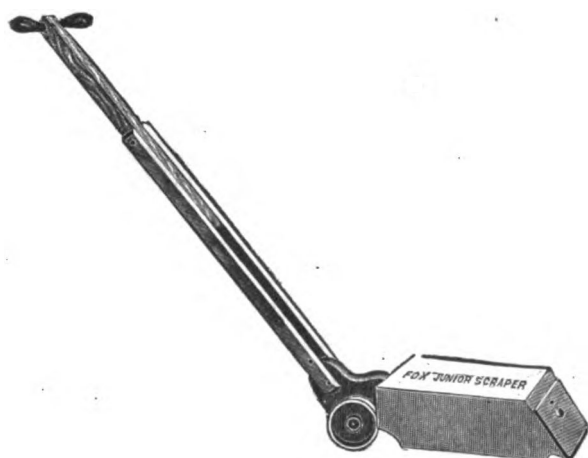

**Fox Junior**—Height of Frame 5 inches, Width 4 ½ inches, Length 16 ½ inches, Complete with One Burnisher, One Wrench, One Stone and Four 3x4 inch Knives, Weight of Frame 52 Pounds.....

Per Dozen

**Extra Blades** .....\$21.00

The front of frame is planed for knife and when knife is placed in machine for operating, it is covered with a rubber cushion 3 inches wide, 5 inches long and ¼ inch thick, which lays over knife to eliminate any possible jar and prevent chattering. Both knife and rubber cushion are held with a steel plate, bolted to front of machine with a ½ x 1 ½ inch square head cap screw. The bottom of frame is corrugated and when in operation slides on floor like a plane, thus insuring uniform cut.

Weight Each Boxed 72 Pounds.

Fox Junior.

Cast Iron Frame, Planed and Corrugated Bottom, 5 inch Rubber Tired Wheels, 33 inch Adjustable Handle.

Each

**No. 4**—Height of Frame 5 inches, Width 6 inches, Length 12 inches, Cutting Edge of Blade 6 inches, Complete with 6 Blades, 1 Burnishing Steel, 1 Hone, 1 Wrench and 1 Form for Holding Blades when Re-Sharpener.....

Per Dozen

**Extra Blades** .....\$25.00

Works equally well on all hardwood flooring and is well adapted for scraping old floors. The wheels are set in so that the knife will cut close up to baseboards and into corners. A rubber pad is placed over the blade, which prevents chattering or leaving waves.

Weight Each Boxed 100 Pounds.

No. 4.

One Piece Grey Iron Frame, Rubber Tired Iron Wheels, Adjustable and Telescopic Maple Handle.

Each

**No. 1**—Height of Frame 4 ¼ inches, Width 9 inches, Length 15 inches, Complete with One Wrench, One 10 inch Mill File, One Oil Stone, One Burnisher, One Clamp for Holding Knife while Filing and Sharpening, Four 3x9 inch Finishing Knives, Three 3x4 inch Old Floor Knives, One 3x9 inch Polishing Knife and Directions, Weight of Frame 52 Lbs.....

\$36.00

Per Dozen

**Extra Blades** .....\$18.00

Weight Each Boxed 95 Pounds.

No. 1.

One Piece Grey Iron Frame, Rubber Tired Iron Wheels, Adjustable and Telescopic Maple Handle, with Adjustable Weight.

Each

**No. 3**—Height of Frame with Weight 8 inches, Width 9 inches, Length 18 inches, Complete with One Wrench, One Burnisher, One File, One Oil Stone, One Clamp for Holding Knife while Filing and Sharpening, Six Old Floor Knives, Twelve Crown Knives, One Special Knife, Substitute for Sander, and Directions, Weight of Frame and Weight 125 Lbs.....

\$54.00

Per Dozen

**Extra Blades** .....\$18.00

Weight Each Boxed 135 Pounds.

No. 3.

These machines will scrape and surface all kinds of flooring, old or new, and any kind of wood: Oak, maple, yellow pine, fir, ash, birch, etc.

The front of frame is planed for knife and when knife is placed in machine for operating, it is covered with a rubber cushion 9 inches long, 4 inches wide and ¼ inch thick, which lays over knife to eliminate any possible jar and prevent chattering. The knife and rubber cushion are held with a steel plate bolted to front of machine with three ½ x 1 ½ inch square head cap screws.

A great feature of No. 1 Scraper is that when in operation, 80 per cent of the entire weight is on the knife exactly where it is required, and when not in operation, the knife is automatically raised, thus preventing it from marring the floor.

The special feature of No. 3 Scraper in addition to 80 per cent of the weight resting on the knife, is the adjustable weight, which permits the operator to add additional weight and place this weight where he desires it.

## FOX FLOOR SCRAPER ACCESSORIES

## BURNISHERS

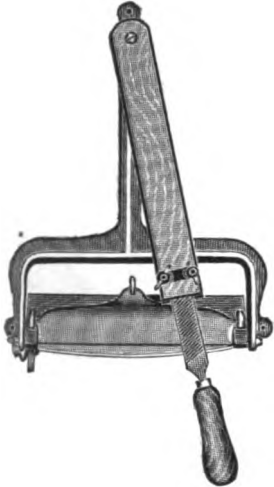

No. 20—9 inches Long, 5x $\frac{1}{4}$  inch Properly Tempered  
Very Best Steel Blade, Hardwood Handle.....**\$0.50**

Each

One Dozen in a Box.

This Burnisher, like the knives, is tempered with the greatest care, for if the burnisher is too hard it will snap off when being used, and still must be hard enough so that the steel of the knife will not cut or mar it.

Knife Sharpener.

No. 30—Will Take Any Size of Knife Up to 9 inches Long, Average Weight Each 15 Lbs..**\$5.50**

This device is designed for the purpose of sharpening and turning a perfect edge on any floor scraper knife.

It is a very simple contrivance and takes any sized knife up to 9 inches.

The operator can file, hone and turn the edge without removing the blade.

No experience is necessary to operate it, and a perfect edge and turn will be given the knife with very little effort.

## FLOOR SCRAPER KNIVES

High Carbonized Steel, Tempered by a Special Process.

Size, Inches .....	3x4	3x9
Each .....	\$1.00	1.00

Adapted for scraping all kinds of hardwood flooring. Will maintain a keen edge a long time under heavy pressure.

## KNIFE SHARPENERS
